# KING COUNTRY ELECTRIC POWER TRUST STATEMENT OF RESPONSIBILITY

FOR THE YEAR ENDED 31 MARCH 2011

The Trustees have pleasure in presenting the annual report of King Country Electric Power Trust (the Trust), incorporating the financial statements and the auditor's report, for the year ended 31 March 2011.

The Trustees of the Trust accept responsibility for the preparation of the annual financial statements and the judgements used in these statements.

The Trustees accept responsibility for establishing and maintaining a system of internal control designed to provide reasonable assurance as to the integrity and reliability of the financial reporting.

In the opinion of the Trustees, the annual financial statements for the financial year ended 31 March 2011 fairly reflect the financial position and operations of the Trust.

with this statement.

FOR THE YEAR ENDED 31 MARCH 2011

### 1. Statement of Significant Accounting Policies

#### a) Reporting entity

King Country Electric Power Trust is an Energy Power Trust as defined in the Electricity Act 2011.

The principal activity of the Trust is the holding of 10% of the shares in The Lines Company Ltd and 20% of the shares in King Country Energy Ltd on behalf of the beneficiaries and to exercise the rights attached to the ownership of the shares in those companies for the benefit of the beneficiaries, in accordance with the terms of the Trust Deed.

#### b) Basis of Preparation

#### **Financial Reporting Standards Applied**

The Electricity Industry Act 2010 requires the Trust to prepare financial statements in accordance with generally accepted accounting practice. The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice (NZ GAAP). They comply with NZ IFRSs and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities that qualify for and apply differential reporting exemptions.

#### **Differential Reporting**

The Trust qualifies for differential reporting exemptions because it is not publicly accountable as defined in the Framework for Differential Reporting (the Framework) and is not large. All available differential reporting exemptions have been taken advantage of.

#### **Measurement Base**

The financial statements are prepared on the historical cost basis unless otherwise noted in a specific accounting policy.

#### **Presentation Currency**

These financial statements are presented in New Zealand dollars.

#### Specific accounting policies

The accounting policies used in the preparation of these financial statements are set out below.

#### c) Revenue Recognition

#### **Interest Income**

Interest income on cash and cash equivalents and investments is recognised as it is earned (e.g. a term deposit that has been invested for 30 days of 100 at balance date will have 30 days of interest recognised). When a receivable is impaired, the Trust reduces the carrying amount to its estimated recoverable amount.

Dividend income is recognised when the right to receive payment is established. The income is reflected on a gross income basis; with the imputation credits attached becoming part of the tax calculation.

FOR THE YEAR ENDED 31 MARCH 2011

#### d) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, bank balances, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less and bank overdrafts.

#### e) Financial Assets and Liabilities

The financial assets of the Trust comprise cash and cash equivalents, debtors and Investments. All of these financial assets are categorised as "loans and receivables" for accounting purposes in accordance with financial reporting standards.

The financial liabilities of the Trust comprise creditors payable.

#### f) Investments

Short term deposits have maturities between three months and one year. These are disclosed at their fair value (cost).

At balance sheet date the Trust assesses whether there is any objective evidence that an investment is impaired. Any impairment loss is recorded as an expense in the income statement.

#### g) Available-for-Sale Financial Assets

Shares in King Country Energy Ltd and The Lines Company Ltd are designated as available-for-sale financial assets. They are reflected at their fair value.

King Country Energy Ltd shares are valued based on the closing trading prices on the unlisted stock exchange as at balance date.

The Lines Company Ltd shares are held by two shareholders and there is no liquid market for the shares. A valuation exercise occurred during the 2007/2008 financial year to determine the value to be used for selling part of the shareholding to the other shareholder. This valuation was used as the basis for the value in the 2009 financial statements.

For the 2010 and 2011 year the net asset value shown in The Lines Company Ltd audited financial statements for 2009 and 2010 respectively has been used to calculate the value of the 10 percent shareholding in The Lines Company held by The Trust. The Trustees believe that in the absence of a readily available current market value, there has been no significant movement in value since 31 March 2009.

#### h) Income Tax

The current income tax asset or liability recognised on the balance sheet represents the current income tax balance due from, or payable to, the Inland Revenue Department at balance date. If imputation credits attached to dividends received are unutilised at balance date they will be carried forward as an asset where it is believed that there is a reasonable expectation of their utilisation within the next two years.

#### i) Debtors

'Debtors' represents items that the Trust has issued invoices for, but has not received payment for at year end. They are initially recorded at fair value and subsequently recorded at the amount the Trust realistically expects to receive. A provision for

FOR THE YEAR ENDED 31 MARCH 2011

impairment of Debtors is established where there is objective evidence that the Trust will not be able to collect all amounts due according to the original terms of the debt.

#### j) Inventories

Inventory is the estimated realisable value on the holding stock of a book on the history of electricity in the King Country which is available for sale to the public.

### k) Property, Plant and Equipment

Plant and equipment are recorded at cost, less accumulated depreciation and impairment losses. Cost includes those costs that relate directly to bringing the asset to the location where it will be used and making sure it is in the appropriate condition for its intended use.

Plant and equipment acquired with individual values under \$500 are not capitalised, they are recognised as an expense in the income statement.

Gains and losses on disposals (*i.e.* sold or given away) are determined by comparing the proceeds received with the carrying amounts (*i.e.* the book value).

#### 1) Depreciation

Depreciation is charged for all plant and equipment and is charged to the income statement so as to spread the cost of an asset over the useful life of the asset on a diminishing value basis. Rates as prescribed by the Income Tax Act 2007 are used as a basis.

The estimated useful lives of the assets are:

Furniture & Equipment (non-technology) Computers

10 years (14.4% DV) 3 years (48% DV)

#### m) Creditors

'Creditors' represents liabilities for goods and services provided to the Trust prior to the end of the financial year which are unpaid. Creditors are recorded at the amount of cash required to settle those liabilities. The amounts are unsecured and are usually paid within 30 days of recognition.

### n) Employee Entitlements - Salary Accruals

Salary payments and entitlements have been paid up to 31 March so there have been no accruals.

#### Goods and Services Tax (GST)

The financial statements have been prepared inclusive of GST as the Trust is not registered for GST.

## 2. Statement of Changes in Accounting Policy

There have been no changes in accounting policy.

FOR THE YEAR ENDED 31 MARCH 2011
